Dr. Rai Weiss
weiss@ligo.mit.edu

Dear Dr. Weiss, *Rai*

On behalf of the JASONS, I would like to extend our heartfelt thanks for your attendance at the 2016 JASON Spring Meeting. Your thought-provoking presentation, "100 Years of Gravitational Waves: Observations of Binary Black Hole Mergers," was both enlightening and insightful.

The purpose of our Spring Meeting is to apprise our members and sponsors on topics of scientific interest and topics of technical matters relating to national security. We greatly appreciate the expertise and candor of individuals, such as yourself, willing to share knowledge to stimulate and encourage discussion.

Once again, thank you for sharing your topic knowledge and helping support the JASON program. We know that this would not have been as strong a meeting without your contribution. Not only do we appreciate you joining us, but we hope to see you again in the future!

Best regards,

Russell Hemley
Chair, JASON
